

# ATP-5200

## Features

- *Accepts wide range of carrier tape sizes*
- *Extremely accurate*
- *Easy setup through USB interface*
- *Adjustable peel speed*
- *Closed loop speed control for more consistent test results*
- *Easy calibration software routine*

## Tape Peel Force Tester

The ATP-5200 Tape Peel Strength Analyzer provides a quick and accurate means for measuring the peel force of surface mount carrier tapes.

The Tape Peel Strength Analyzer interfaces to a computer through a USB interface. The included Statistical software program provides mean, variance, minimum/maximum values and Cpk. Test results can be saved, exported or printed.

The ATP-5200 is ideal for quality control testing of outgoing product by IC manufacturers, as well as testing of incoming product at board assemblers.

## Specifications

- Peel Force Range: 0-150 grams
- Tape Sizes: 8-100 mm
- Pull Speed : 60-300 mm/min
- Pull Length: 350 mm max.
- Accuracy: +/- 0.5 gram
- Electrical: 115/220 VAC, 5/2.5 Amps
- Dimensions: 10.5" x 8.5" x 6" high (268 x 219 x 155 mm high)
- Operating System: Windows 2000, XP
