

M-602

Dip Lead Trimmer

The Model M-602 lead trimmer can quickly and easily trim 300, 400 and 600 mil plastic, ceramic and side-brazed dips. The trimmer can easily convert to handle a different package size or type with a simple blade change.

The M-602 is a compact, portable unit that requires minimal table space. No special tools or set-up is required. Each cutter blade is sized for a particular lead length.

Operation is completely safe and is foot pedal actuated. The lead trimmer is designed for long life and low maintenance.

Features
